KEY CHARACTERISTICS

Data Source: AHDB Recommended List for 2025/26 reproduced with full acknowledgement to AHDB.

- ◆ Very high yielding
- ◆ Exceptional RlmS phoma resistance
- ◆ Very good light leaf spot resistance

OUTPUT

Gross output (yield adjusted for oil content)	104
Oil content	45.5

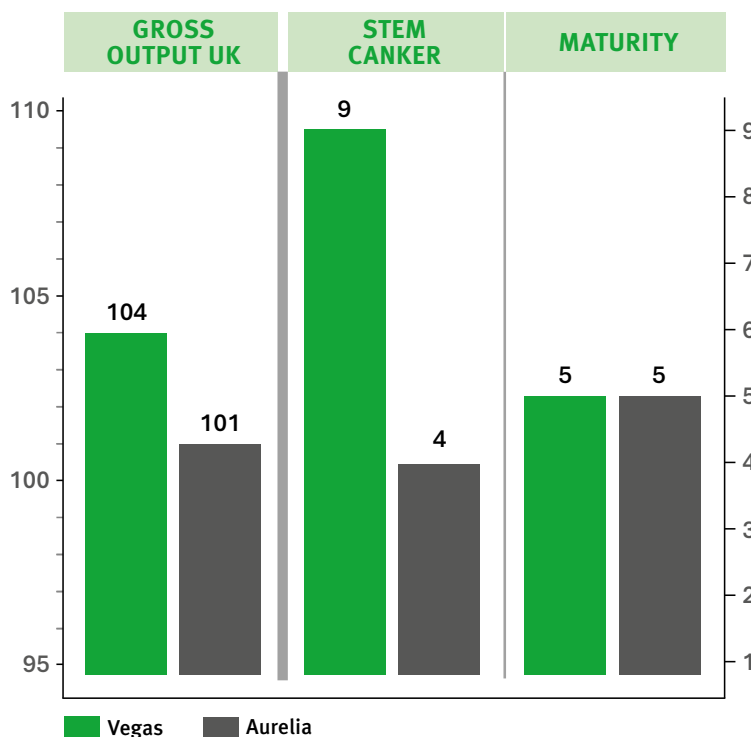

AGRONOMICS

Resistance to lodging	(8)
Stem stiffness	8
Earliness of flowering	8
Earliness of maturity	5

DISEASE

Light leaf spot	7
Stem canker	9

Ratings above are 1-9. A high rating indicates that the variety shows the character to a high degree.

Aurelia is a control variety on the current RL
